

THE

TANK-18 X 30"

STRUCTURAL FOAM SEWAGE EJECTOR BASIN

PART NUMBER: M3-2400

With the introduction of the "M" Series Tanks, Topp Industries has created a line of Sewage Ejector and Sump Basins that are setting new standards for all others to follow. Of particular note check our competitors 18"x30" Sump Basin.

The M3 Tank actually measures up to its claim of 18" x 30", the competition's does not. By designing to exact dimensions the Topp M3 offers an increase in size that translates directly to a number of benefits. Increased volume means less cycling time for your pump, increasing pump life and decreasing operating costs. Check out the newest Structural Foam Sewage Ejector Basin in the M Series... Only from Topp.

THE STANDARD FEATURES.

- The M3 is the highest quality, lowest priced Sewage Ejector Basin that offers true 30 gallon capacity.
