

# TOPP eliminates the need to cut tubing!

Designed to fit new and retrofit older septic tanks, TOPP-quality corrosion-resistant polyethylene septic tank risers eliminate the need to cut tubing from awkward lengths. Risers available in 24" and 6" heights for bolt-on or concrete cast-in work. 6-inch extensions are also available. Risers and extensions are lightweight and UPS shippable.

Our popular fiberglass cover securely fits TOPP poly risers and extensions.

Don't sell yourself, your workers, or your customers short.

Ask about our riser and extension design features. Save time, money and productivity.

# A Full Line of Covers and Accessories

## Specialists in Engineered Products

Sold as complete kits or separately, the Topp line of Sewage Ejector and Sump Basin Covers are designed to perfectly fit your needs for standard or custom configurations. Choose from poly or steel covers to suit your application.

Standard designs include: Duplex; Duplex w/access; Simplex; Simplex w/access; Split Steel; Solid and Slotted.

We recognize no limitations for your specialized needs and welcome your inquiries for custom applications.

Also sold separately or included in our Topp Cover Packages (TCP)s are Topp "Ringer" grommets. These high quality grommets assure you the finest sealing properties for long-term dependable use. Employing the highest grade of material the industry has to offer makes the new Ringer grommets the number one choice for all applications.

The collective experience of Topp's staff of engineers, designers and production specialists, assures you of the highest degree of performance and each project is afforded the highest degree of professionalism...No matter the size. From a "one-off" custom product, to providing intelligent solutions for large scale municipal installations, Topp's track record is unparalleled.

Sewage Ejector and Sump Basins are always in stock and can be shipped immediately from our extensive inventory.
