

Designed to fit new and retrofit older concrete septic tanks

TOPP corrosion-resistant polyethylene septic tank risers eliminate the need to cut tubing from awkward lengths. Risers are available in 24" and 6" heights for bolt-on or concrete cast-in work. 6-inch extensions are also available. Risers and extensions are lightweight and UPS shippable. Our popular fiberglass cover securely fits TOPP poly risers and extensions. Don't sell yourself, your workers, or your customers short. Ask about our riser and extension design features. Save time, money and productivity.
