

Anti-Float Ring

twist lock design for quick on-site assembly

- ✓ New Topp, exclusive Anti-Float Ring with Quick Lock design features easy screw alignment with twist lock design for quick assembly.
- ✓ Save on shipping costs...just stack, ship and in less than one minute you can assemble on the jobsite.
- ✓ Installation kit includes six stainless steel screws and a hand-held screwdriver. No power tools needed.
- ✓ Fits Topp's M2 (18" x 22", 22 U.S. gallon capacity) and M3 (18" x 30", 30 U.S. gallon capacity) basins constructed of corrosion-resistant structural foam.

1. Turn basin upside down, place the Anti-Float Ring on top, turn clockwise until it locks into position.

2. Push in the center for easy screw alignment with twist lock design.

3. No power tools needed. Stainless steel screws and hand-held screwdriver are included.
