

The TOPP Capp

The **TOPP Capp** is the newest addition to the TOPP family. The innovative design of our TOPP Capp raises 6" from grade level and provides a water and gas tight solution for your next project. It's durable and lightweight - reducing the burden of heavy lifting with steel covers. Save your back - and money - with our TOPP Capp.

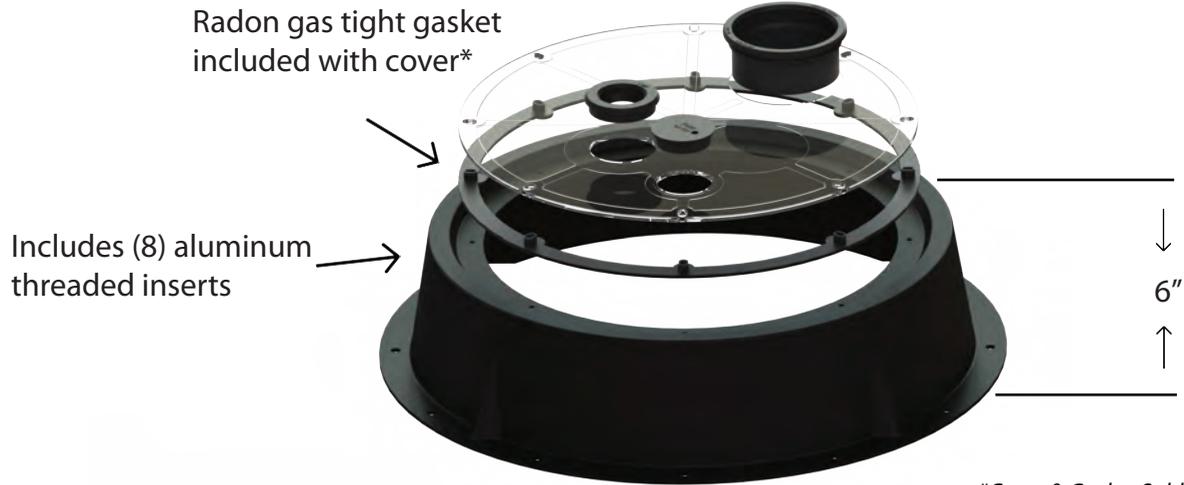

Features Include:

- Constructed of durable, weatherproof and corrosion resistant polyethylene resin
- 6" raised above grade to eliminate fluid resting on top
- Gas tight and water tight with appropriate seals
- Appropriate for use in home applications, as well as outdoor
- Can be shipped via UPS or common carrier

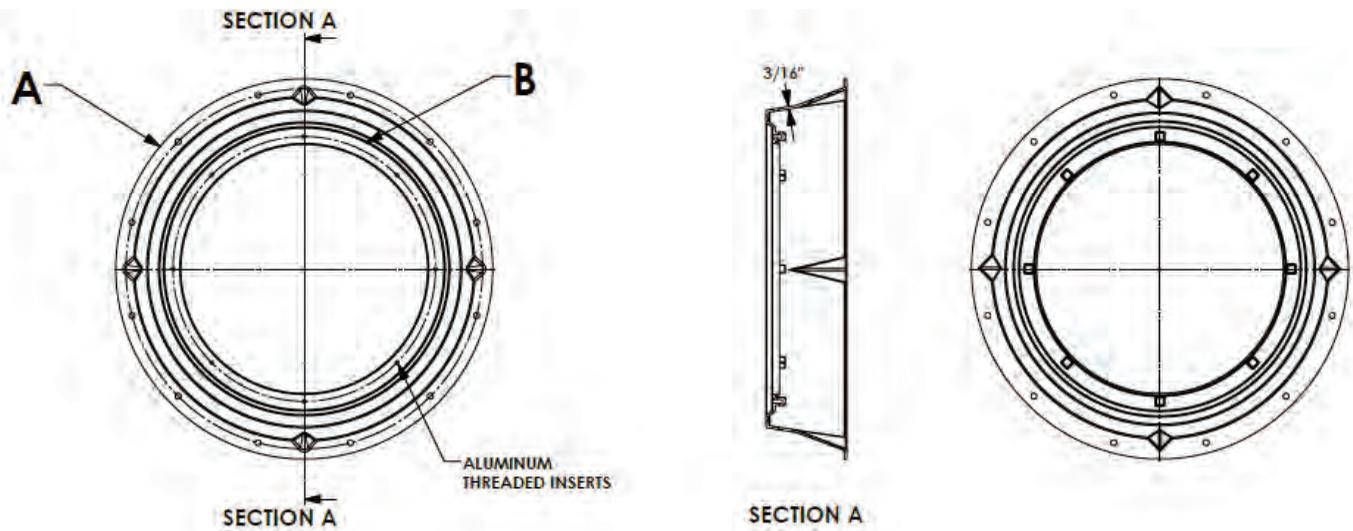

Available in 24", 30", 36", 42" & 48"
