

Professional Grade Basins & Accessories

Building For The Future

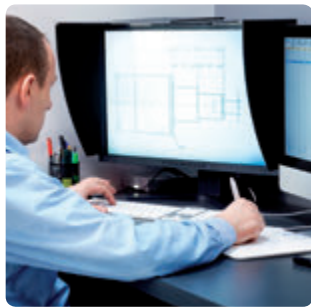

Providing the best fiberglass, polyethylene and structural foam sewage, sump and wastewater basins. Made proudly in America.

Your Partner for Efficient, Environmental Solutions

Intelligent Answers for Budget *and* Performance

TOPP's combination of innovation, service and technology is why TOPP has been the number one choice for environmental and economic solutions in the sewage, sump and wastewater markets for over 25 years. The unique qualities found within our company stem not only from the ideal combination of expertise and quality - but from a practical insight into our customers' every need. Long range vision and our dedication to our customers has been the driving force behind the success to TOPP. Quite simply, we produce working solutions that make sense and make a difference – now and for the future.

Professional Solutions

Our staff of experienced engineers, designers and production specialists provides solutions that surpass industry standards on every product. Our team assures the highest degree of performance and professionalism, no matter what size the project. With years of experience and intelligent product design, our team has the capability of providing custom solutions to meet any need.

World-Class Customer Service

Our passion for each and every customer is what guides our business. Our world-class customer service and sales teams offer continuous support to assure you are 100% satisfied with every solution. We pride ourselves on our commitment to our customer base and our ability to provide our products in a timely and efficient manner.

Personal Attention From Inquiry To Delivery

TOPP's fleet of semi-trucks delivers across the country to provide a personalized touch to our delivery.

Our Products

The Industry Leader in Sump & Sewage Basins

TOPP Industries, Inc. offers a complete line of polyethylene, fiberglass and structural foam basins, lids and covers. We also offer lift stations, septic tank risers, rail systems, uniseals and more. All of our products are built to handle your sump, sewage and wastewater distribution needs.

Engineered Products

Specializing in Structural Foam, Polyethylene and Filament Winding

Always Working, Always in Stock

Stacks of sump basins line pallets in our 300,000 square foot manufacturing facility. Our talented labor force works around the clock, ensuring product readiness and steady inventory.

Fiberglass

Our state-of-the-art facility manufactures both common basin sizes, as well as custom orders made to spec.

In 1988, Kevin Birchmeier had a vision of creating a quality product that consumers could not only trust, but rely on, for the best choice in economical and environmentally responsible sump, sewage and wastewater products. Getting its start out of a two car garage in Rochester, Indiana, TOPP Industries, Inc. was started from humble beginnings – and only a few employees. Since that time, TOPP has grown to an internationally recognized brand with over 120 employees and over 300,000 square feet of manufacturing space.

Forging valuable relationships with our many clients world-wide is a TOPP goal. If you have any questions, comments or inquiries, please contact us and see why!
