

Compression Molded, Durable Solutions

TOPP offers a **Non-Skid Fiberglass Septic Riser Cover** to fit most 24" diameter risers, corrugated and ultra-rib pipe. The cover is noncorrosive, strong, lightweight and can withstand a 2,500 pound wheel load. The built-in cover gasket provides a watertight and gas tight seal. This cover is also cost effective, maintenance free, high impact resistant and provides exceptional uniformity, dimensional accuracy and stability.

Bolt holes are pre-drilled for quick and easy assembly with stainless steel hardware included.

Non-skid Design
